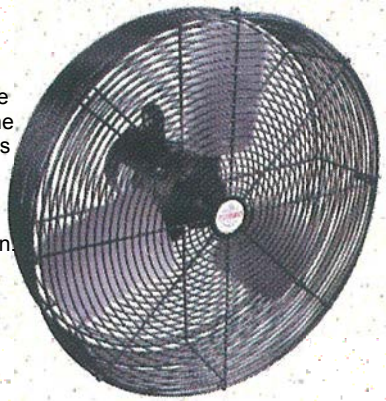
FANS & COOLING PRODUCTS

SULLIVAN'S 24" TURBO FAN



Keeping your livestock cool and growing hair depends on providing a high velocity of air flow to the animal. Some fans claim to blow lots of air, but it's the speed or air velocity that is important for cooling. This is what improves hair growth in show animals. The special 3-wing blade and now even stronger, more powerful motor, pre-engineered to work in unison, produce more air velocity than any other livestock fan!
RKS-TF24 - $339.00
20" Fans available *RKS-TF20* - $309.00

SULLIVAN'S ARCTIC 1

Hooks directly to garden hose. Emits a light evaporating mist of water at the rate of 1/2 gallon per hour. Length is approximately 18".

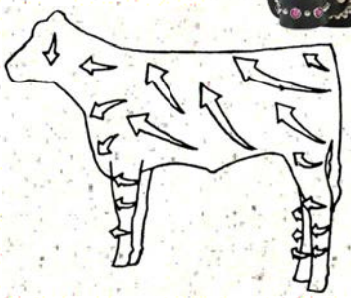
Brushing and Combing Pattern

Begin by brushing the hair straight forward. Use the Sullivan's Roto Fluffer Brush to help stimulate hair growth and train hair. With more hair, brush at a 45-degree angle and gradually work toward desired angle. Use of a Sullivan Blower helps to train hair. The tip of the nozzle should rest next to the skin and be moved slowly in an arc pattern for best results.



ROCKY COMB HOLDER

Holds comb for exhibitors who don't have pockets. Clips on or slips on the belt. **Black leather** only.
RKS-RCH - $10.50

COMBS & BRUSHES

SULLIVAN'S RICE ROOT MIX BRUSH

These Rice Root Brushes have stronger bristles to be longer lasting, and smooth wood handles for your comfort. The Sullivan's Rice Root Mix brush has bristles that contain 1/2 rice root and 1/2 synthetic bristles to help stand up to continuous use. Bristles are trimmed to 1 3/4" for long lasting firmness. We recommend that you do not soak your Sullivan's Rice Root Brushes, they are pre-soaked.

RKS-RRL - Large, 8" long x 2-5/8" wide - $24.50
RKS-RRM - Medium, 7" long x 2-1/2" wide - $24.50
RKS-RRS - Pocket, 5-3/8 long x 1-1/2" wide - $14.00

TIPS ON GROWING BETTER LEG HAIR

How can I grow better leg hair?

A roto fluffer brush can help grow new leg hair by stimulating and invigorating the skin and hair. Start with damp hair and lightly touch the rotating brush to the leg hair. Let the brush do the work, do not push hard against the leg. Start at the bottom of the leg and work upwards. Working the hair against its natural growth will train the hair to stand out. Use your Roto Brush after rinsing while the hair is damp. Periodic use of RK Magik Sheen will enhance the hair.

TAIL BAGS

Use the tail bags to protect your calf's tail when using a Roto Fluffier
RKS-TB $14.50

TAIL CLAMPS

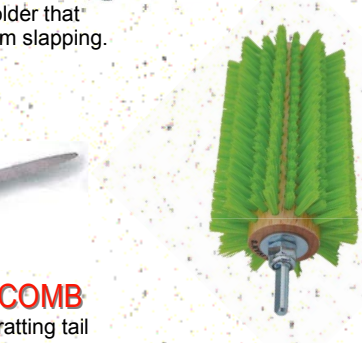
RK-LBB - $17.25

SWEDISH TAIL COMB

Light and easy to use for ratting tail hair. Aluminum construction.
RK-STC - $10.95



SULLIVAN'S STAGGERED BRISTLE ROTO BRUSH

The New Staggered Bristle Roto Brush has rows with staggered lengths of bristles, one row with long, the next row being 1/4" shorter. The short-cut rows allow the long bristles to work deeper into the hair. This creates more lift and volume to the hair, prevents the matted look and invigorates gentle stimulation to the hair base for new hair growth and faster hair training.
RKS-SBRB - $19.95

SULLIVAN'S ROTO FLUFFER

The Roto Fluffer brush has staggered lengths of bristles, one group long, the next group short. Long bristles work deep into the hair, while short bristles "pop" out the long guard hairs. This staggered design allows for the fullest body and prevents a matted look. This is the same concept as the Sullivan's Fluffer Comb. Made of 40% rice root and 60% synthetic bristles for more strength and longevity than old roto brushes. This ideal mix invigorates the hair and skin to stimulate new hair growth and speed hair training. Soak in water for 12 hours before the first use. Remember to keep away from tails!!
RKS-RF - Roto Fluffer - $38.50
RKS-RFP - Also available - Synthetic White Bristle Roto Brush.- $24.50

SHORT BRISTLE BRUSH

Designed to work like a rice root brush with synthetic bristles.

Ashley Baker
Baker's Zagucci 8Z
Ashley and the famous "Gucci" of Baker Charolais know ShowBloom works! Zagucci and Ashley topped the ranks of many interbreed Junior Shows during the 2012-2013 show season. The top honour being the win of Grand Champion Heifer at the National Junior Beef Heifer Show at the Toronto Royal Winter Fair. Many more winnings were achieved by the Baker Family with the rest of their show string. All powered by "ShowBloom". Congrats on your well deserved success Baker Family.

You breed greatness into your animal, ShowBloom helps that greatness blossom

Amber Malachlan
Amber and her steer "Otis" were named Reserve Grand Champion Market Animal at the Toronto Royal Winter Fair. Amber used ShowBloom on her 2013 show string, being her first time using ShowBloom she saw a difference. It grew hair and she also noticed how much more luster and body the hair had. She had four show cattle on it as well as a market lamb. Her winnings in 2013 were Grand Champion Feeder Steer Brigden Fair, Grand Champion Market Lamb Brigden Fair, Champion 4H Market Heifer at Red Brand Show and Sale and Reserve Champion Market Animal at the Royal Winter in the Queens Guineas Show.

BRANDING TOOLS

ELECTRIC BRANDS

The Electric Branding tool will heat to branding temperature in ninety seconds and maintains constant even heat for producing a good brand. Leave plugged in as long as you're branding. Eliminates open fires. Plug into a 110 volt outlet for fast, easy hook up!
RK-EBT - call for pricing

FREEZE BRANDERS

These branding irons are ample in weight and have the temperature holding capacity to help you brand more livestock in less time and still aid you in producing a better brand. Freeze branding is a technique in which a super-cold branding iron properly applied to the animal's hide kills the pigment producing cells. The result is white or colourless hair at the brand site. It is effective on both cattle and horses. The main advantage of freeze branding is that the brand is easily read at any time of the year and gives permanent identification.

Note: When using the RK Pure Products, shake cans well before using, and spray lightly.
RK Pure Magik: A light adhesive for well broke hair. Shake well & spray lightly. Magik will not leave any residue on dark coloured animals.
RK Pure Hold It: *RK Pure Hold It* is our form of leg adhesive. Ideal for medium to thinner hair type. It gives the natural look with more holding power. Step up to *RK Pure Super Hold* if hair is not as well trained. *Spray lightly.*
RK Pure Super Hold: The highest strength adhesive. *Super Hold* works well to build leg hair. To do so, shake can well and turn upside down. This will make your adhesive spray out in larger flakes. After completely dry, apply the RK Touch Up of your choice to match colour.
RK Pure Bloom: A "lite oil" for shine of the body. Spray on shortly before entering the show ring and blow dry, or brush lightly, for that bloom touch. *RK Pure Bloom* does not require washing out. Gives a natural shine to white and dark hair. *Spray lightly.*
RK Pure Black Show Touch Up or RK Pure Frosty White Show Touch Up: These products produce a natural black or white colour without becoming too shiny or dull in appearance. *RK Pure Black Show Touch Up* gives you a true, deep black colour with a natural shine. *RK Pure Frosty White Touch Up* replenishes that beautiful white lost to faded or stained hair. They will not break down adhesives when applied on legs or body. When leg adhesives are completely dry apply the Touch Up. Touch Ups larger flakes will create a fuller appearing leg hair. *RK Pure Frosty White Touch Up* works as a great leg building product.
RK Pure Foam It: *RK Pure Foam It* is a lighter and faster drying foam. It will not matt hair but will create a thicker hair base and more holding power. To take full advantage of Foam, be sure each coat is completely dry before applying another coat of Foam or other RK show day products. Used by professionals for show days, as a hair training tool or for clipping. Works great with *Pop & Bloom* for show day grooming. Foam dries clear so it will not change animal's hair colour.
RK Pure Remove It: This wonderful product is uniquely formulated for a safe and effective removal of show day products. *RK Pure Remove It* contains no harsh products that will burn the animals skin or hair. Simply spray onto areas where adhesives have been applied and brush in. *RK Pure Remove It* allows hair to perform naturally upon completion. This is especially beneficial when re-grooming is needed in a short period of time. For best results blow out with a blow dryer and then shampoo with *RK Pure Sparkling Suds Shampoo*.
RK Pure Pop & Bloom: This show day product works very well in hot or cold weather, on long or short hair. *RK Pure Pop & Bloom* brings out a lustrous shine and adds bloom to the body. Spray evenly on the body hair and comb in. Blow dry for 10-15 minutes to work *RK Pure Pop & Bloom* to the full length of the hair. If more holding power is desired, apply *RK Pure Foam It* before the *RK Pure Pop & Bloom* process. Does not need to be washed out.
Liniment Hair Stimulator: This terrific product chills the hide to make the hair stand on end. Use as a hair popper for show day grooming or clipping. Mix 1/3 *Hair Stimulator* with other grooming products such as *RK Pure Magik Sheen*, *RK Pure Pop & Bloom*, etc., Spray over the entire body and blow dry for the best results. Not for use as a daily hair product.

Daily Hair Care:

RK Pure Revitalize: The best of its kind! A skin and hair conditioner in an aerosol. *Revitalize* promotes healthy and beautiful hair coats by restoring natural oil and nutrients. For daily care, spray over entire body and blow into hair. Apply in the evening when letting cattle out and rinse out the next morning. *Revitalize* is also a valuable tool while at shows. Spray over entire body except legs the night before the show. Rinse out with water on show day. Hair will have abundant shine and body.
RK Pure Magik Sheen: The daily hair care formula to create manageable hair coats and keep hair coats clean. *RK Pure Magik Sheen* promotes natural shine, builds excellent strength, helps train hair and repels dust. With all the sheens on the market today, *RK Pure Magik Sheen* offers this advantage: less oils than other sheens, absolutely will not dry out skin or hair, will actually moisturize hair, does not attract dust and builds a deep natural shine. Spray on entire body once a day everyday. Comb in and blow dry. *RK Pure Magik Sheen* requires no washing out.
Rag Oil: There are many different ways of using *Rag Oil*. For show time, mix the following one gallon of product: 1/3 *Rag Oil*, 6 oz. *Liniment Hair Stimulator*, 2/3 *RK Pure Magik Sheen*, shake well before applying. The night before your show apply this mixture over the entire body (excluding legs). Work *Rag Oil* deep into hair and skin. Show morning, rinse out with water. You will notice excellent body and freshness of hair.
***For daily care at home**: Rag Oil* is a tremendous hair conditioner that will restore hair coats natural oils, bring life back to dull old hair and control flaking of skin. For a gallon mixture mix 1/3 *Rag Oil* with 2/3 *RK Pure Magik Sheen*. Spray on in the evening, and blow to hair roots. Let soak over night, rinse out next morning. Repeat this process one to three times per week.
Grooming a Leg: Start with clean leg hair. Comb through leg hair with massage brush or Comb in an upward direction to separate and break the hair. Spray with a light coat of adhesive and comb to separate the hair. Let leg set and dry. While first leg is drying, go to the next leg and follow the same procedure. When all legs have been done, go back and spray on a final set, correcting any problems and completing the final look. When the adhesives are completely dry apply the *RK Touch Up* of your choice. NOTE: AT SOME SHOWS COLOUR ENHANCEMENT MAY BE PROHIBITED. Break down all the adhesives with *RK Pure Remove It* and wash out with *RK Pure Sparkling Suds Shampoo*. NOTE: When using any adhesive in extremely hot, humid temperatures it is recommended to cool your adhesives in ice or cold water. That will keep your adhesives from gumming up allowing its overall performance to be better. Keep adhesives at room temperatures in extremely cold conditions.
